

Whether you or someone you care for is recovering from surgery or a serious illness, or a decision regarding short or long-term care needs to be made, University Centers East and West understand how complex choosing the right care can be.

We design our individual plans around your personal healthcare needs. After all, what's best for you is what really matters. You will experience a friendly and caring environment the moment you walk through our doors. Whether you or someone you care for is looking for a new home, or needs extra help before returning home, please call us. A member of our professional staff will give you a tour of the center, introduce you to the staff and discuss ways we can make your stay special.
